

**University of the West of
England Bristol in
collaboration with
NHS England is pleased to
announce the launch of**

**Cultural Awareness for
Educators E-Learning
resource**

This free one-hour e-learning resource is designed for educators and healthcare professionals working across clinical and non-clinical settings. It supports classroom teaching, simulation-based learning, practice supervision and workplace-based learning.

Develop cultural humility through a reflective approach that promotes inclusive learning and a greater understanding of learners from diverse backgrounds.

The resource was developed through national collaboration with clinical leaders and informed by lived experience, subject expertise and inclusive learning design.

**A certificate will be available on
successful completion of the
resource.**

INTEGRATED CARE ACADEMY
*Uniting people, knowledge and innovation to
transform health and care.*

This resource can help educators embed inclusive pedagogy and reduce inequalities in learning and workplace environments. It supports staff, learners and organisations by helping to:

- Create more inclusive teaching, supervision and assessment
- Build confidence to recognise and respond to inequality
- Improve access to fair and supportive learning opportunities
- Support culture change across workplaces and learning environments

Access the free e-learning resource and supporting resources on the NHS Learning hub
