PHE Guidance states " Incorporating immunisation into the role of the HCSW has limitations and implications to clinical care and should therefore be considered carefully by the whole healthcare team. Training in immunisation is essential for HCSWs whose employers wish them to immunise. It is recommended that only HCSWs who have achieved care training to Level 3 of the Qualifications and Credit Framework (QCF) or equivalent in England, Wales or Northern Ireland with at least two years' experience as a HCSW should be considered for immunisation training. HCSWs working at this level are likely to be at level three of the NHS Career Framework."

Please complete the following so we can assess whether the delegate meets the prerequisites.

- Level 3 Qualification (relevant to role) – YES or NO
- If yes please give details
- If no – is the delegate working to level 3 of the NHS career framework (please see attached document for description) – YES or NO
- Number of years experience in HCA role
- If experience not gained in current practice please detail where

Please be aware that there will be a substantial amount of pre-course work for delegates to undertake before the course.
